

Focus on Energy Upgrades the Small Business Program for 2017

[Two Rivers Water & Light](#) (TRWL) wants to help small businesses like yours identify and complete energy efficiency projects that will help you save energy and lower your utility bill. To help make it easy for you, TRWL is partnering with [Focus on Energy](#) to deliver its statewide energy efficiency and renewable resource programs.

The Focus on Energy [Small Business Program](#) (SBP) is designed to help businesses to upgrade equipment or implement energy efficiency improvement projects. This program is available to all qualifying business customers regardless of past participation. Small commercial and industrial businesses who qualify for the Program will consume an average of 40,000 kilowatt hours (kWh) or less per month during July and August.

The Program offers substantially reduced pricing on limited quantities for HVAC, Lighting and Commercial Refrigeration improvements. In addition, the Program offers enhanced incentives for these and other measures. Some of these measures include:

- T8LED Lighting
- Screw-in LED Bulbs
- LED Refrigerated Case Lighting
- Refrigerated Case ECM Motors
- Boiler and Furnace Tune-Ups
- AC System Tune-ups

Click here: focusonenergy.com/business/efficient-facilities/small-business or call Focus on Energy at 800-762-7077 to learn more about the Program and/or to [find a participating SBP Trade](#)

[Ally](#) who will provide a free assessment and provide installation services.

Helping You Focus on Your Bottom Line

If you have any questions, or want to find out more information about other financial incentive opportunities that may be available for your business, please contact Frank Barth at 920-573-0155 or fbarth@wppienergy.org
