Jefferson, WI;  
Customer locations  
in WI and IA

**61.0%**

Worthington, MN;  
Dodge County, WI

1. These figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historic Product Content Label the actual resource mix of the electricity you purchased. These figures also reflect the power delivered to Renewable Energy's customers in 2016.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years.

For comparison, the current average mix of resources supplying your electric utility includes: Coal (48.7%), Nuclear (20.0%), Natural Gas (18.1%), and Renewables (13.3%). This resource mix was prepared in accordance with FERC Form I requirements.

The average home in the United States uses 909 kWh per month. [Source: U.S. EIA, 2013]

For specific information about this electricity product, please contact WPPI Energy, 800-255-9774, [www.wppienergy.org](http://www.wppienergy.org).

At Two Rivers Water & Light, we believe affordable public power strengthens our community and helps our neighbors. That's why, through WPPI Energy, we're partnering with other local not-for-profit utilities to share resources and lower costs.
